

WE ARE HIRING!

HOCHBAUTECHNIKER(IN) HOLZBAU

STRUCTURAL ENGINEER FOR TIMBER CONSTRUCTION

COMMOD HOUSE

COMMODO-Haus GmbH plans and sells sustainable and individually planned modular houses. We attach great importance to the architectural design. We are looking for new members for our team! Send applications with CV and letter of motivation by Monday, 31.10.2021, to the following e-mail: info@commod-house.com

Your Tasks:

- Preparation of implementation plans (Autocad)
- Close cooperation with production and partner companies
- Site supervision
- Communication with customers

Profile of requirements:

- Completed civil engineering training, preferably HTL or FH
- At least 2 years of professional experience in a similar position
- Excellent German and English skills
- Love for wood construction and creative ideas
- Independent and solution-oriented working style
- Representation of the company to the outside world
- Class B driving license

Nice to have:

- Slovenian and/or additional language skills

We offer:

- An annual gross salary from KV with the willingness to overpay depending on qualifications and professional experience
- The opportunity to actively shape the corporate division
- Collegial and international team, flexible working hours, team events, flat hierarchies, great office in the centre of Graz near KF University, perfectly accessible by public transport, free coffee
